FIRST, THEN, NEXT

Name: ..... **Date:** .....

A three-box strip for a child who can hold more than one step: two pieces of work and then the reward, or work, reward, and the activity that comes after it so the ending is no surprise. Two strips on the page. Keep NEXT the same every time you use it, or the child will stop trusting the strip.

FIRST	THEN	NEXT

FIRST	THEN	NEXT

Cut between the two strips. Each one folds along the back to stand on a desk.
