Y SPELLING RECORD

Name: ..... **Date:** .....

Three weekly lists of eight words, in teaching order. Read the list out for the child to write in the empty row underneath, mark it, and write the score in the header. Repeat a week two weeks later and compare: a word that is wrong twice goes on the personal list at the bottom.

Week 1: y at the end date tested: _____ score: _____ / 8

my	fly	shy	happy	candy	baby	city	funny

Week 2: change y to i date tested: _____ score: _____ / 8

babies	cities	puppies	carried	cried	dried	happier	happiest

Week 3: y in the middle date tested: _____ score: _____ / 8

gym	myth	system	symbol	crystal	mystery	syrup	typical

WORDS TO KEEP PRACTICING

What the mistakes tell you. "Happyer" or "babys" means the change-y-to-i rule is not secure, so go back to week 2 rather than giving more words. "Jim" for gym means the small Greek set has not been learned by sight. A child who spells week 1 correctly but cannot say which sound the y makes knows the words but not the rule, and will struggle with new words.
