TOKEN BOARD AT HOME

Name: ..... **Date:** .....

The same board for a kitchen wall. Pick one behavior from the list, write it on the line, and pay a token every single time it happens today, even five times in an hour. A token board at home fails when the parent forgets to pay; it almost never fails because the reward was wrong.

I AM WORKING FOR

write or draw the reward here

FIVE TOKENS TO EARN IT

1 2 3 4 5

I earn a token for .....

TEN THINGS WORTH A TOKEN

1. Shoes and coat on without a reminder
2. Sat at the table until everyone finished
3. Teeth brushed top and bottom
4. Came the first time you were called
5. Hands washed before eating
6. Put one load of toys away
7. Got in the car seat without a fight
8. Used a quiet voice indoors for ten minutes
9. Tried one bite of something new
10. Let a sibling go first

One behavior at a time. A board that pays for "being good" teaches nothing, because the child cannot tell which thing earned the token.
