3-TOKEN BOARD

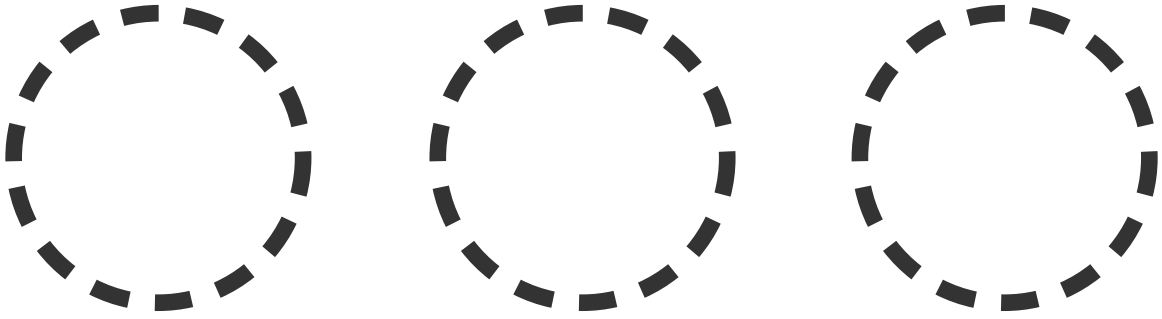

Name: ..... **Date:** .....

Three big spaces for a child who is just learning that tokens buy something. Keep the work tiny at this stage: one question, one spoonful, one minute of sitting. The whole board should be finished inside two or three minutes the first few times, so the child finds out that a full board really does pay.

Hand the token to the child and let them place it. Placing it themselves is half of what makes a token board work.
