LEAF SET: PICTURE CARDS

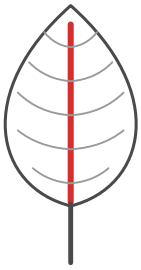

Name: ..... **Date:** .....

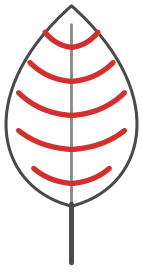

The six picture cards for the leaf set, the same drawings at the same size as on the control cards, with no words. These are the cards the child lays out first.

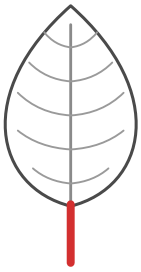

The six drawings are the same leaf six times; only the red part changes. That is deliberate. The child is not telling six plants apart, the child is learning to look at one plant part at a time and give it a name.
