2-DIGIT ADDITION (NO REGROUPING)

Name: ..... **Date:** .....

Add the ones first, then the tens. Write each answer in the boxes under the line. None of these sums needs a carry.

Worked example: 2 ones + 5 ones = 7 ones. 4 tens + 3 tens = 7 tens. So 42 + 35 = **77**. Always start with the ones column on the right.
