AREA AND PERIMETER TOGETHER

Name: ..... **Date:** .....

Find **both** the perimeter (add the sides, in m) and the area (multiply length by width, in m²) of each rectangle.

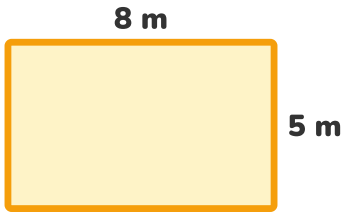

1

Perimeter = ____ m

Area = ____ m²

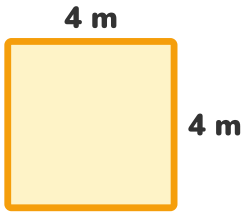

2

Perimeter = ____ m

Area = ____ m²

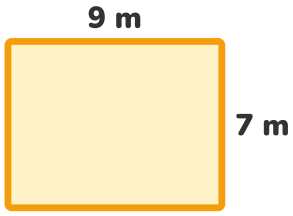

3

Perimeter = ____ m

Area = ____ m²

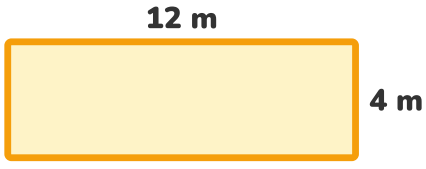

4

Perimeter = ____ m

Area = ____ m²

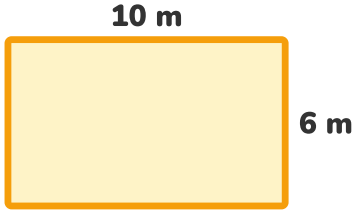

5

Perimeter = ____ m

Area = ____ m²

6

Perimeter = ____ m

Area = ____ m²

Notice: number 3 is a square. Is there another rectangle with the same perimeter as it but a different area? Draw one on the back.

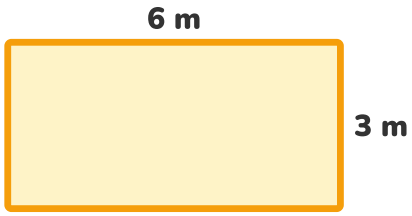

AREA AND PERIMETER TOGETHER

ANSWER KEY

Name: ..... **Date:** .....

Find **both** the perimeter (add the sides, in m) and the area (multiply length by width, in m²) of each rectangle.

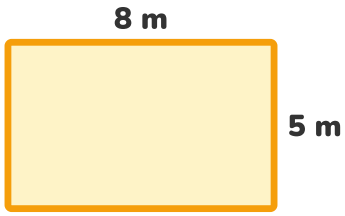

1

Perimeter = **18 m**

Area = **18 m²**

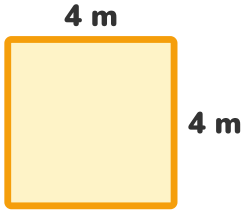

2

Perimeter = **26 m**

Area = **40 m²**

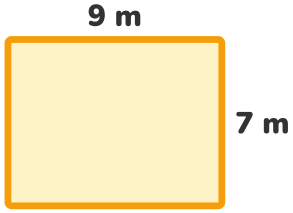

3

Perimeter = **16 m**

Area = **16 m²**

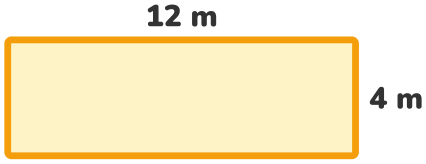

4

Perimeter = **32 m**

Area = **63 m²**

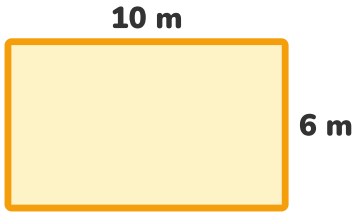

5

Perimeter = **32 m**

Area = **48 m²**

6

Perimeter = **32 m**

Area = **60 m²**
