Physical or chemical change?

Name: _____ Date: _____

INSTRUCTIONS: Part 1: tick Physical (the same substance, only its form or state changes) or Chemical (a new substance is made). Part 2: complete the sentences. Part 3: answer in full sentences.

PART 1: PHYSICAL OR CHEMICAL?

	Physical	Chemical
1. Ice melting in a glass of lemonade.	☐	☐
2. Iron railings turning rusty.	☐	☐
3. Sugar dissolving in tea.	☐	☐
4. Wood burning on a campfire.	☐	☐
5. Crushing an empty drinks can.	☐	☐
6. Baking soda fizzing when vinegar is added.	☐	☐
7. Water boiling into steam.	☐	☐
8. A cake rising and browning in the oven.	☐	☐
9. Cutting paper into strips.	☐	☐
10. Milk going sour.	☐	☐
11. Chocolate melting in your pocket.	☐	☐
12. Silver jewellery slowly turning black.	☐	☐
13. Mixing sand and salt together.	☐	☐
14. A glow stick lighting up when you snap it.	☐	☐
15. Dew forming on grass overnight.	☐	☐
16. Bread turning into toast.	☐	☐

PART 2: SIGNS THAT A CHEMICAL REACTION HAS HAPPENED

1. Bubbles appear when two clear liquids are mixed: a _____ is being produced.
2. The test tube gets hot: the reaction is releasing energy, so it is _____.
3. Two solutions are mixed and a yellow solid appears: a _____ has formed.
4. A blue solution turns pale green: a _____ change.
5. A cold pack gets colder when the chemicals inside it react: the reaction is _____.

PART 3: EXPLAIN

1. Melting ice is a physical change but burning wood is a chemical change. Explain the difference.

_____

_____

_____

PAGE 2 - ANSWER KEY: Physical or chemical change?

PART 1: PHYSICAL OR CHEMICAL?

1. Physical
2. Chemical
3. Physical
4. Chemical
5. Physical
6. Chemical
7. Physical
8. Chemical
9. Physical
10. Chemical
11. Physical
12. Chemical
13. Physical
14. Chemical
15. Physical
16. Chemical

PART 2: SIGNS THAT A CHEMICAL REACTION HAS HAPPENED

1. gas
2. exothermic
3. precipitate
4. colour
5. endothermic

PART 3: EXPLAIN

1. Melting only changes the state: it is still water and it can freeze again. Burning makes new substances (carbon dioxide, water vapour, ash) with different properties, and the wood cannot be recovered.
