MIXING COLOURS

Name: ..... **Date:** .....

Part 1: write the missing colour in each equation. Part 2: mix or colour each result in the matching numbered box. Use real paint if you can and see whether it agrees with your answer.

PART 1: COMPLETE THE EQUATIONS

1. red + yellow = _____
2. yellow + blue = _____
3. blue + red = _____
4. red + orange = _____
5. yellow + green = _____
6. blue + _____ = blue-violet
7. red + white = _____ (a tint)
8. blue + black = _____ (a shade)
9. green + grey = a dull green called a _____
10. orange + blue (complements) = a _____ brown or grey

PART 2: PAINT THE RESULTS

1	2	3	4	5
6	7	8	9	10

MIXING COLOURS ANSWER KEY

Name: ..... **Date:** .....

PART 1: COMPLETE THE EQUATIONS

1. orange 2. green 3. violet (purple) 4. red-orange 5. yellow-green 6. violet 7. pink 8. navy / dark blue 9. tone 10. dull / neutral

PART 2: PAINT THE RESULTS

Swatches should match the answers above; complements mixed in equal amounts give a muddy brown-grey.
