COMPARE FRACTIONS ON A NUMBER LINE

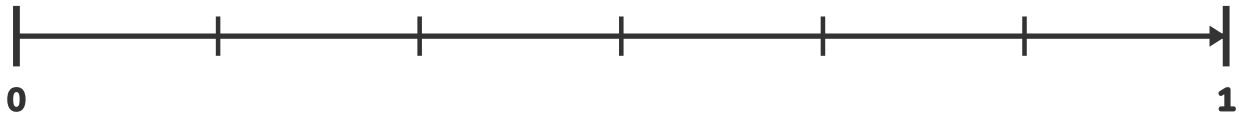

Name: ..... **Date:** .....

Each number line runs from 0 to 1. Mark where each lettered fraction belongs (rename it into the line's pieces first if you need to), write its letter above the mark, then circle the letter of the largest fraction.

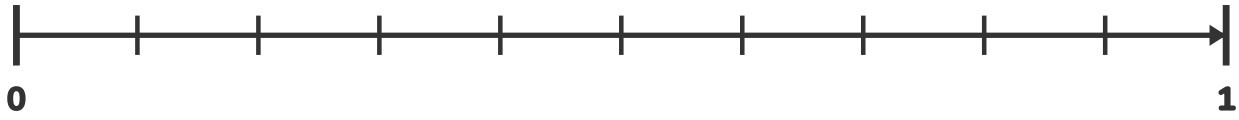

1. 8ths line. Place: A $\frac{1}{2}$ B $\frac{3}{8}$ C $\frac{3}{4}$ D $\frac{1}{8}$ largest: ☐

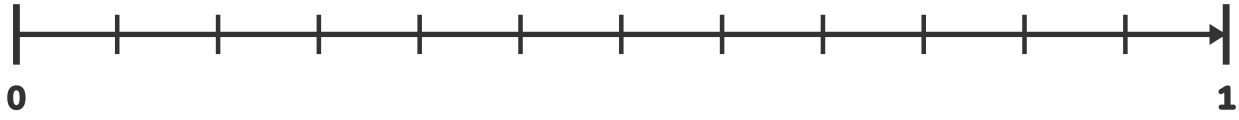

2. 6ths line. Place: A $\frac{1}{3}$ B $\frac{5}{6}$ C $\frac{1}{2}$ D $\frac{1}{6}$ largest: ☐

3. 10ths line. Place: A $\frac{3}{5}$ B $\frac{1}{10}$ C $\frac{9}{10}$ D $\frac{2}{5}$ largest: ☐

4. 12ths line. Place: A $\frac{1}{4}$ B $\frac{2}{3}$ C $\frac{5}{12}$ D $\frac{11}{12}$ largest: ☐

Worked example: On an eighths line, $\frac{1}{2} = \frac{4}{8}$, so it sits on the fourth tick. The fraction furthest to the right is the largest.

COMPARE FRACTIONS ON A NUMBER LINE ANSWER KEY

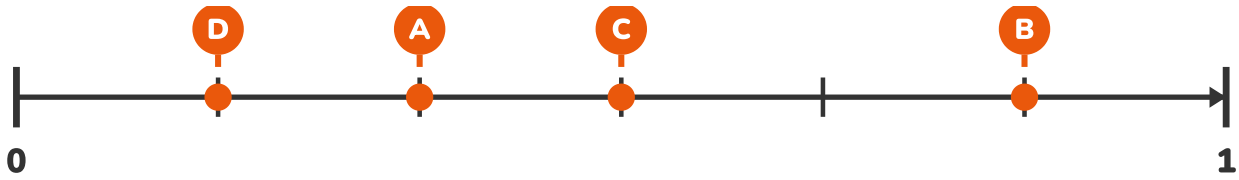

Name: ..... **Date:** .....

Each number line runs from 0 to 1. Mark where each lettered fraction belongs (rename it into the line's pieces first if you need to), write its letter above the mark, then circle the letter of the largest fraction.

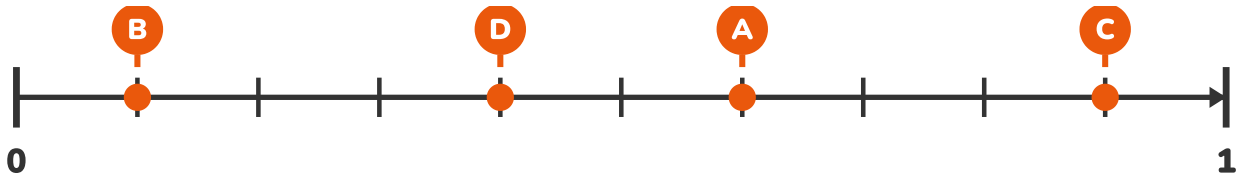

1. 8ths line. Place: A $\frac{1}{2}$ B $\frac{3}{8}$ C $\frac{3}{4}$ D $\frac{1}{8}$ **largest: C**

2. 6ths line. Place: A $\frac{1}{3}$ B $\frac{5}{6}$ C $\frac{1}{2}$ D $\frac{1}{6}$ **largest: B**

3. 10ths line. Place: A $\frac{3}{5}$ B $\frac{1}{10}$ C $\frac{9}{10}$ D $\frac{2}{5}$ **largest: C**

4. 12ths line. Place: A $\frac{1}{4}$ B $\frac{2}{3}$ C $\frac{5}{12}$ D $\frac{11}{12}$ **largest: D**
