CUTTING PRACTICE: PAPER CHAIN STRIPS

Name: ..... **Date:** .....

Long straight cuts with a reward at the end: eight strips that turn into a paper chain. Cut on the dashed lines, one strip at a time, then follow the two steps at the bottom.

How to make the chain

1. Color the strips, then cut along every dashed line so you have 8 long strips.
2. Bend one strip into a ring and glue the tab. Thread the next strip through the ring, bend it, glue it, and keep going until the chain is as long as you like.
