# READ AND WRITE DECIMALS

**Name:** ..... **Date:** .....

Say the whole number, say "and" for the decimal point, then read the digits after the point as tenths or hundredths. Write each number in figures, then each number in words.

**Worked example:** 4.35 is "four **and** thirty-five hundredths": the last digit sits in the hundredths place, so the whole decimal part is hundredths. 0.6 is "six tenths".

## WRITE THE NUMBER

1. twenty-four and fifteen hundredths
2. forty and eighty-six hundredths
3. forty-nine and four tenths
4. twenty-seven and one tenth
5. fifty-four and eighty-one hundredths
6. thirty-four and thirty-six hundredths
7. four and ninety-six hundredths
8. fifty-six and six hundredths

## WRITE THE WORDS

9. **57.96** _____
10. **20.09** _____
11. **32.19** _____
12. **56.97** _____
13. **5.26** _____
14. **0.42** _____
15. **23.60** _____
16. **53.89** _____
