SOLID WORDS

Name: ..... **Date:** .....

Write what each word means in your own words. The picture next to it is one solid the word fits. Model answers are on page 2, but any sentence that means the same is right.

Face

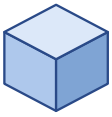

Edge

Vertex

Curved surface

Net

Prism

Pyramid

Ovoid

SOLID WORDS ANSWER KEY

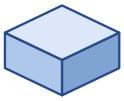

Name: ..... **Date:** .....

Write what each word means in your own words. The picture next to it is one solid the word fits. Model answers are on page 2, but any sentence that means the same is right.

Face

A flat surface of a solid. One side of a cube is a face.

Edge

The straight line where two faces meet.

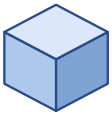

Vertex

A point where edges meet, a corner. Two or more are vertices.

Curved surface

A surface that bends, with no edges and no corners.

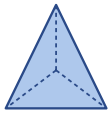

Net

A solid unfolded and laid out flat, ready to fold back up.

Prism

A solid with two identical ends joined by rectangles.

Pyramid

A solid with a flat base whose faces rise to one point.

Ovoid

An egg shape: curved all over, wider at one end than the other.
