WHAT IS A HEART WORD?

Name: ..... **Date:** .....

A heart word is a word you use every day that is not spelled the way it sounds. You still say the sounds and write a letter or letter team in each box. Then you draw a small heart above the box you have to learn by heart.

said

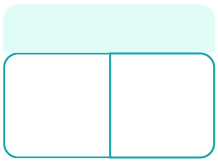

- Three sounds, so three boxes: /s/ then short e then /d/.
- The **s** and the **d** are regular. They say what you expect, so they get no heart.
- The letters **ai** say short e here, and that is a surprise. The heart goes over that box only.
- Never draw a heart over the whole word. Only the surprising part is learned by heart.

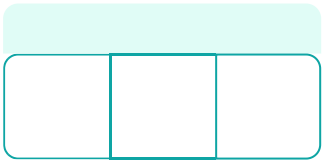

NOW YOU TRY

Say each word slowly. Write one letter or letter team in each box. Draw a heart above the box that is a surprise.
