SOUND BOXES: 6 SOUNDS

Name: ..... **Date:** .....

Six sounds, six boxes: the longest words a child can usually still hold in their head. Each one has a three letter blend at the start, or a blend at both ends. Say the word, write one sound in each box, then write the whole word.

WORD	ONE SOUND IN EACH BOX	WRITE THE WHOLE WORD
strand		.....
script		.....
splint		.....
sprint		.....
stands		.....
crafts		.....
prints		.....
blends		.....

The last four words end in a plural s, and it is not the same sound in all of them: **stands** and **blends** end in /z/, while **crafts** and **prints** end in /s/ because the t in front of it is unvoiced. Either way the last box holds the letter s, because that is how the sound is spelled.
