SHADING TECHNIQUES

Name: ..... **Date:** .....

Each box starts with an example. Continue the same technique across the box, making it gradually darker from left to right.

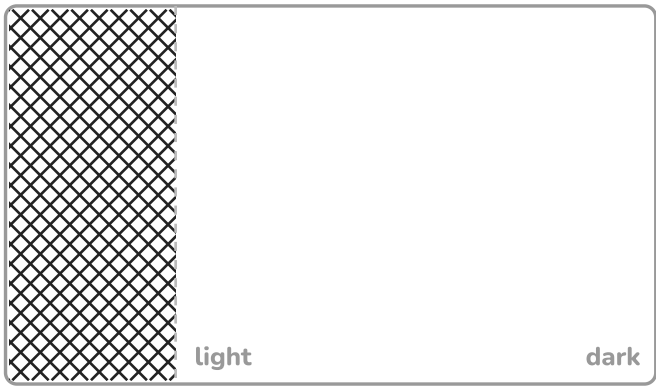

Hatching

Parallel lines. Closer together = darker.

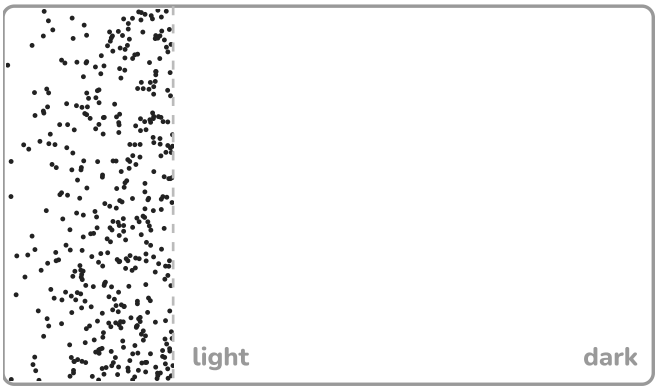

Cross-hatching

Two or more layers of lines crossing at an angle.

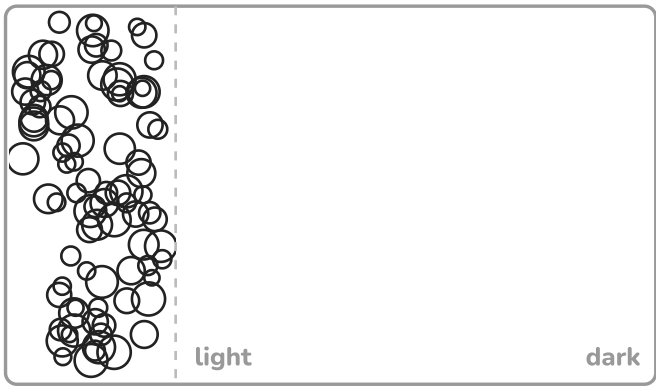

Stippling

Dots. More dots close together = darker.

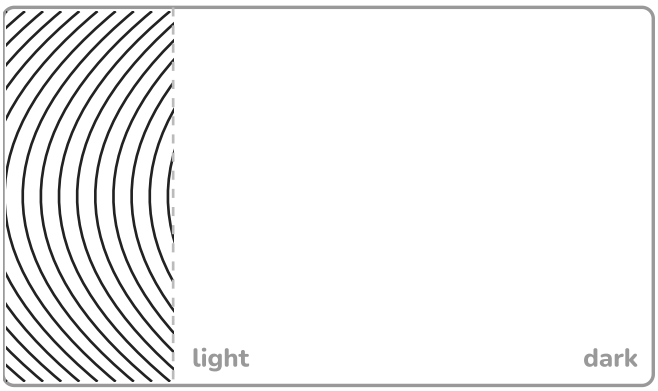

Scumbling

Small overlapping circular scribbles.

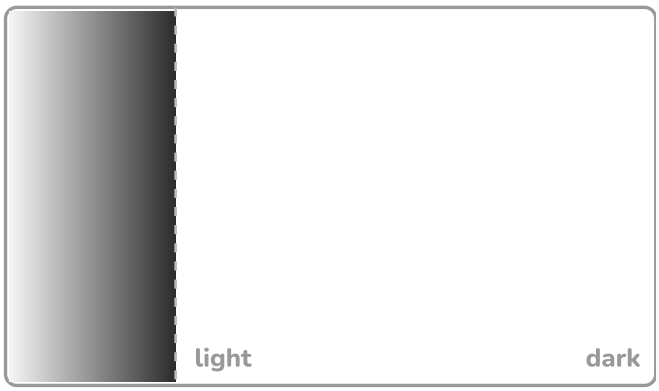

Contour hatching

Curved lines that follow the shape of the form.

Blending

Smooth shading with no visible lines.
