PARTICLE DIAGRAMS

Name: ..... **Date:** .....

Part 1: write the state shown in each box. Part 2: complete the table. Part 3: draw the particles in each empty box: use circles, and think about spacing and pattern.

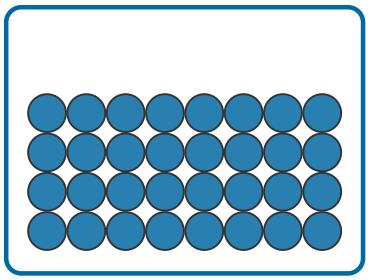

PART 1: WHICH STATE IS IT?

A

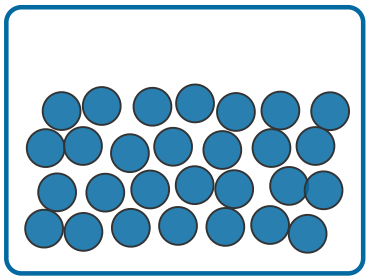

State: _____

B

State: _____

C

State: _____

PART 2: DESCRIBE THE PARTICLES

	Solid	Liquid	Gas
How close are the particles?			
How do they move?			
How strong are the forces holding them together?			

PART 3: DRAW THE PARTICLES

Solid

Liquid

Gas

PARTICLE DIAGRAMS ANSWER KEY

Name: ..... **Date:** .....

PART 1: WHICH STATE IS IT?

A = gas; B = solid; C = liquid

PART 2: DESCRIBE THE PARTICLES

How close? | touching, packed tightly in a regular pattern | close together, no regular pattern | far apart

How do they move? | vibrate in a fixed position | slide past each other | move fast in all directions

Forces? | strong | weaker | very weak (almost none)

PART 3: DRAW THE PARTICLES

Drawings: solid = rows of touching circles in a regular pattern; liquid = touching circles with no pattern, filling the bottom of the box; gas = a few circles spread through the whole box.
