TWO-STEP EQUATION WORD PROBLEMS

Name: ..... **Date:** .....

Write a two-step equation for each problem (choose a letter for the unknown), solve it, and answer in a sentence.

1. A gym charges a $15 joining fee plus $8 a month. Ana has paid $79 in total. How many months has she been a member?

2. Ben bought 4 notebooks and a $6 pen. He spent $22. How much was each notebook?

3. A taxi costs $3 to start and $2 per mile. Carla paid $19. How many miles did she ride?

4. Dev is saving for a $120 bike. He has $30 and saves $15 a week. In how many weeks can he buy it?

5. Three friends split the cost of a pizza and each also paid $2 for a drink. Each paid $9. What did the pizza cost?

6. A rectangle has a perimeter of 38 cm. Its width is 7 cm. What is its length?

7. Eli read some pages on Monday, then twice as many on Tuesday, then 5 more on Wednesday: 41 pages in all. How many on Monday?

8. A phone plan costs $25 a month plus $0.10 per text. The bill was $37. How many texts were sent?

TWO-STEP EQUATION WORD PROBLEMS ANSWER KEY

Name: ..... **Date:** .....

Answer key: one equation and its solution for each problem.

1. A gym charges a $15 joining fee plus $8 a month. Ana has paid $79 in total. How many months has she been a member?

8m + 15 = 79, m = 8 months

2. Ben bought 4 notebooks and a $6 pen. He spent $22. How much was each notebook?

4n + 6 = 22, n = $4

3. A taxi costs $3 to start and $2 per mile. Carla paid $19. How many miles did she ride?

2d + 3 = 19, d = 8 miles

4. Dev is saving for a $120 bike. He has $30 and saves $15 a week. In how many weeks can he buy it?

15w + 30 = 120, w = 6 weeks

5. Three friends split the cost of a pizza and each also paid $2 for a drink. Each paid $9. What did the pizza cost?

p/3 + 2 = 9, p = $21

6. A rectangle has a perimeter of 38 cm. Its width is 7 cm. What is its length?

2L + 14 = 38, L = 12 cm

7. Eli read some pages on Monday, then twice as many on Tuesday, then 5 more on Wednesday: 41 pages in all. How many on Monday?

3p + 5 = 41, p = 12 pages

8. A phone plan costs $25 a month plus $0.10 per text. The bill was $37. How many texts were sent?

0.10t + 25 = 37, t = 120 texts
