## THE FIRE STATION VISIT

On Thursday our class was visiting the fire station on Mill Road. Firefighter Okafor had polished the big red engine before we arrived. She is working the night shift this week, but she still answered every question. We could hear the radio crackling in the office. Two firefighters were testing the long ladder, and it has reached higher than the roof. "You may try on a helmet," she said, so we took turns. The helmet must weigh as much as a bag of sugar! Next month the crew will visit our school with the engine. We should write them a thank-you card tomorrow.
