SOUND BOX CLASS RECORD

Name: ..... **Date:** .....

One row a child, one column a skill. Write the date when the child maps three words of that type correctly without being told how many boxes to use. A blank column at the end is for a skill your own program teaches in a different order.

CHILD	2 SOUNDS	3 SOUNDS CVC	LETTER TEAM IN ONE BOX	4 SOUNDS WITH A BLEND	5 SOUNDS	SILENT E IN THE VOWEL BOX	VOWEL PLUS R IN ONE BOX

Order that works. Two sounds, then three sound short vowel words, then words with a letter team in one box, then blends, then five sounds. Silent e and vowel plus r come last because both ask the child to put two letters in one box for a reason they cannot hear. A child who is still unsure about blends will guess on those two.

Group to pull for extra practice, and which sound they are missing:
