SCHWA IN PREFIXES

Name: ..... **Date:** .....

A prefix is almost never stressed, so the vowel inside it is almost always a schwa. Study the table, then split each word into its prefix and its root and write the vowel letter that says the lazy "uh".

Prefix	Sounds like	Examples
a-	uh	about, above, again, alone, asleep
be-	buh	because, before, begin, below, beside
com- con- cor-	cuh	complete, connect, contain, correct
de-	duh	decide, depend, deliver, describe

1.	**about**	prefix		root		schwa letter
2.	**above**	prefix		root		schwa letter
3.	**again**	prefix		root		schwa letter
4.	**because**	prefix		root		schwa letter
5.	**before**	prefix		root		schwa letter
6.	**begin**	prefix		root		schwa letter
7.	**complete**	prefix		root		schwa letter
8.	**connect**	prefix		root		schwa letter
9.	**contain**	prefix		root		schwa letter
10.	**correct**	prefix		root		schwa letter
11.	**decide**	prefix		root		schwa letter
12.	**depend**	prefix		root		schwa letter

Why this helps: one prefix learned once covers dozens of words. **be-** alone gives because, before, begin, below, beside, behind and between.
