Y SAYS LONG I

Name: _____ **Date:** _____

At the end of a one-syllable word, y says the long i sound: it says the name of the letter i, as in my and fly. Add the y to finish each word, read it out loud, then write the whole word on the line.

The rule: one syllable, y at the end, y says **long i**. There is no vowel letter anywhere else in these words, so the y has to be the vowel. That is what "y as a vowel" means.
