DOUBLES TO TWENTY

Name: ..... **Date:** .....

Both rows show the same number, so the rack shows a double. Count one row, then say the double: four and four is eight.

1.  **1 + 1 =** ☐ double 1
2.  **2 + 2 =** ☐ double 2
3.  **3 + 3 =** ☐ double 3
4.  **4 + 4 =** ☐ double 4
5.  **5 + 5 =** ☐ double 5
6.  **6 + 6 =** ☐ double 6
7.  **7 + 7 =** ☐ double 7
8.  **8 + 8 =** ☐ double 8
9.  **9 + 9 =** ☐ double 9
10.  **10 + 10 =** ☐ double 10

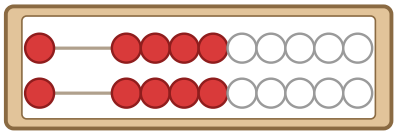

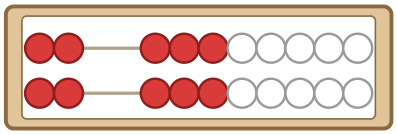

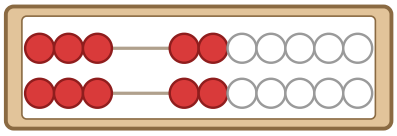

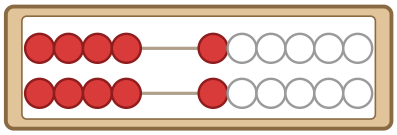

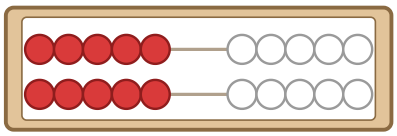

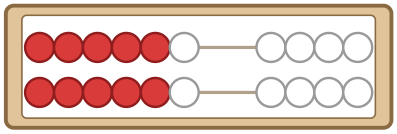

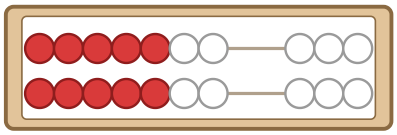

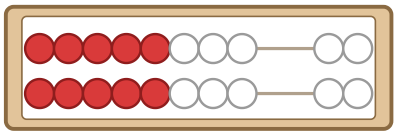

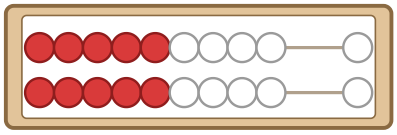

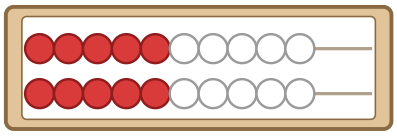

Doubles are the facts children learn first because the two rows look the same. Once double six is known, six and seven is only one more, and that is how near doubles are taught.
