WHAT WE AGREE TO DO

Name: ..... **Date:** .....

A thermometer only works if everyone knows what happens next. Fill this in with the student, then give a copy to every adult who works with them.

LEVEL	WHAT I WILL DO	WHAT THE ADULT WILL DO	WHAT THE ADULT WILL NOT DO
5 Out of control			
4 Very upset			
3 Upset			
2 A little bothered			
1 Calm			

Worth writing in the last column. Most plans fail on what the adult does at level 4, not on what the student does. Common entries: do not ask questions, do not give a consequence now, do not stand close, do not call another adult over unless it is needed for safety. Agree the wording with the student so it is a promise rather than a rule.

Review it after four weeks. If a level never gets used, the wording for it is probably wrong.
