HOW OFTEN, HOW LONG

Name: ..... **Date:** .....

Some behaviors matter because of how often they happen, others because of how long they last. This sheet records both, plus an intensity rating, so the team can see which is changing.

Behavior recorded: _____

INCIDENTS	TOTAL MINUTES	LONGEST ONE	MOST COMMON INTENSITY
_____	_____	_____	_____

Intensity key. 1: brief, the student recovered with a reminder. 2: needed an adult to step in and lasted several minutes. 3: the space had to be cleared or the student left the room. Rate what happened, not how stressful it felt to the adult, and agree the three descriptions with the team before anyone starts recording.
