PROGRESS RECORD

Student: Hector Date:

IEP GOAL

Given a list of 10 CVC words, Hector will decode and blend each word aloud with 80% accuracy on 3 out of 4 trials.

Mastery: 80% (8 of 10 words read correctly) on 3 of 4 trials.

HOW TO GIVE THE PROBE

Present the list of 10 words one at a time. Wait for Hector to read each word aloud before moving to the next. Mark the word as correct if he blends and says the whole word correctly; mark it incorrect if he guesses, skips, or says a different word. Do not provide prompts or corrections during the trial.

SCORING

A word is correct only if Hector orally produces the exact CVC word with no self-correction.

- Watch for adding an extra 'uh' sound at the end of the word.
- If Hector struggles with the 'sh' blend, use a form that avoids 'sh' words to keep difficulty consistent.
- Ensure the font is large and clear (18pt or larger) to avoid visual processing issues.

TRIAL	DATE	FORM	SCORE / 10	%	MET 80%?	INITIALS
1					Y / N	
2					Y / N	
3					Y / N	
4					Y / N	
5					Y / N	
6					Y / N	

Goal met when 8/10 or better is reached on 3 of 4 trials. Use a different form each trial.
