# MATCH THE NET

**Name:** ..... **Date:** .....

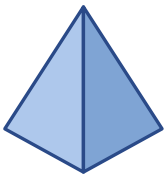

A net is the solid unfolded flat. Four nets are lettered A to D. Write the letter of the net that folds up into each solid.

**1.**

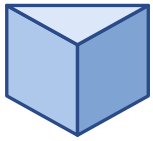

Cube

**2.**

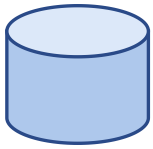

Square-based pyramid

**3.**

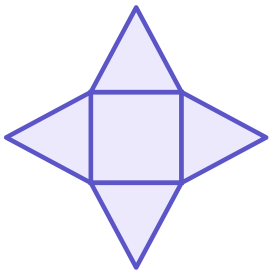

Triangular prism

**4.**

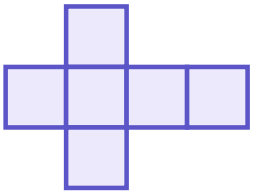

Cylinder

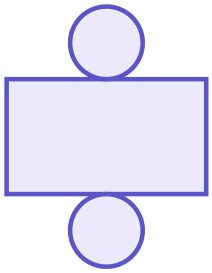

**A**

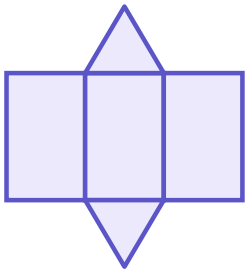

**B**

**C**

**D**

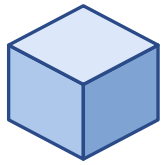

Count the faces in the net and the faces on the solid: they must match. The cylinder net is the odd one out because its middle rectangle wraps around into a curved surface instead of folding at an edge.

# MATCH THE NET ANSWER KEY

**Name:** ..... **Date:** .....

A net is the solid unfolded flat. Four nets are lettered A to D. Write the letter of the net that folds up into each solid.

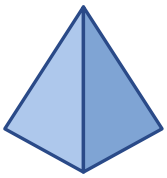

**1.**

Cube

**B**

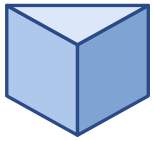

**2.**

Square-based pyramid

**A**

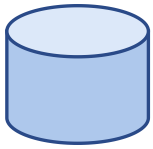

**3.**

Triangular prism

**D**

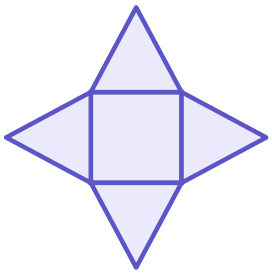

**4.**

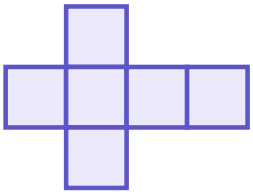

Cylinder

**C**

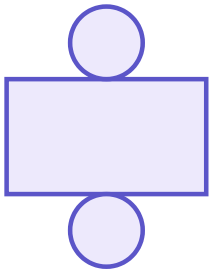

**A**

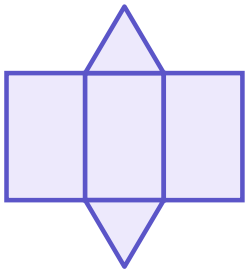

**B**

**C**

**D**

Count the faces in the net and the faces on the solid: they must match. The cylinder net is the odd one out because its middle rectangle wraps around into a curved surface instead of folding at an edge.
