WRITE A SENTENCE

Name: ..... **Date:** .....

Each row of symbols is the plan for a sentence. Write a sentence of your own that follows the plan exactly: one word for each symbol, in that order.

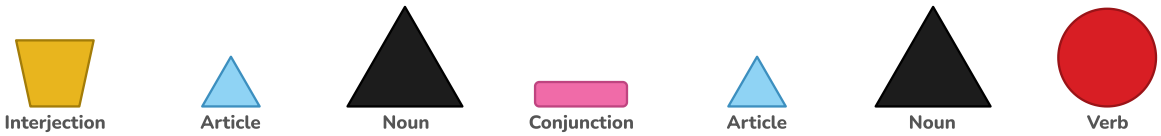

1.

2.

3.

Check your sentence by pointing at each word and naming its symbol out loud before you write the period.

WRITE A SENTENCE ANSWER KEY

Name: ..... **Date:** .....

Each row of symbols is the plan for a sentence. Write a sentence of your own that follows the plan exactly: one word for each symbol, in that order.

1.

The small dog barks.

One possible answer. Any sentence that uses the same parts of speech in the same order is right.

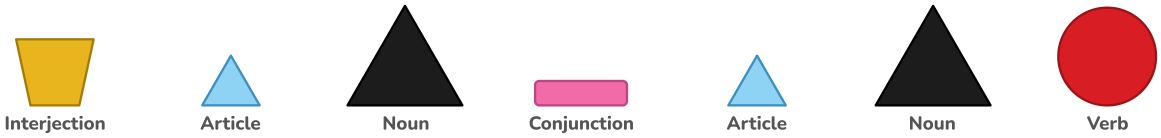

2.

She runs quickly to the house.

One possible answer. Any sentence that uses the same parts of speech in the same order is right.

3.

Oh, the cat and the dog sleep.

One possible answer. Any sentence that uses the same parts of speech in the same order is right.

Read the sentence back word by word, pointing at the symbol above each word. If a word does not match its symbol, the sentence needs one word changed, not rewriting.
