REKENREK CARDS

Name: ..... **Date:** .....

Twelve rack cards. Cut them out on the dashed lines, then cut out the twelve number cards on page 2 and lay them face down for a matching game.

REKENREK CARDS

Name: ..... **Date:** .....

The twelve number cards that go with page 1. Mix both sets, turn them face down and take turns turning over one of each: keep the pair if the rack matches the number.

6	19	8
13	16	20
11	10	7
9	3	5

Played flat on the table these are also flash cards: hold up a rack card for two seconds, then turn it over and ask for the number. Two seconds is on purpose, it is too short to count bead by bead, so the child has to see the five and the ten.
