FLOSS SORTING CARDS

Name: ..... **Date:** .....

Cut out the twenty word cards on page 2. Read each one, then lay it in the column that matches its ending. Four cards belong in each column.

FF	LL	SS	ZZ	ONE LETTER

Once the cards are sorted, read each column from top to bottom and ask what is the same about the words. The last column is the odd one out: those four words end in a single s even though they have one syllable and one short vowel.

For the adult: ff takes cuff, sniff, scoff and stiff. ll takes bell, chill, doll and swell. ss takes glass, press, toss and floss. zz takes buzz, jazz, fizz and fuzz. The last column takes bus, gas, yes and was.
