WINTER LINES

Name: ..... **Date:** .....

Start at the dot and keep your pencil moving all the way across the page. Zigzags have sharp points like icicles; snow drifts are smooth and round; flurries loop round and round. Slow is fine, lifting the pencil is the thing to avoid.

Icicles on the roof: down to a point, back up, down to a point

Little icicles

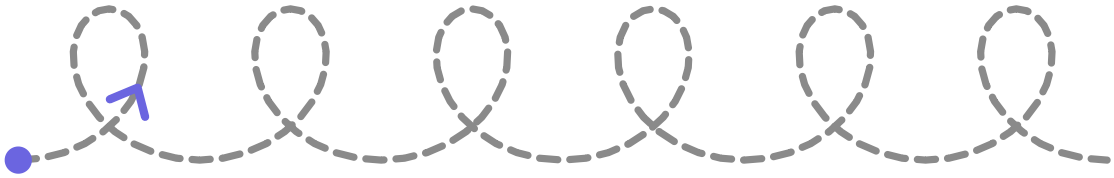

Snow drifts: up and over, down and round

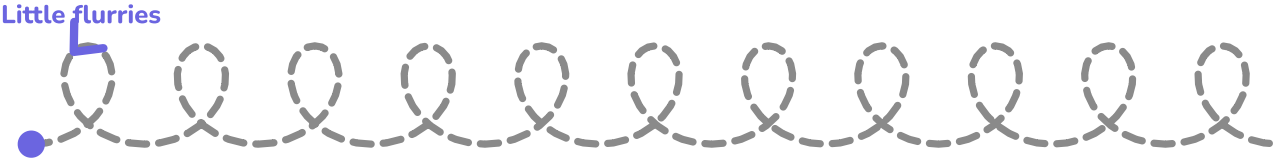

Small snow drifts

Snow flurries: round and forward, round and forward

Little flurries

Draw your own: icicles on the roof, a snow drift and swirling snow
