DICTATION RECORD

Name: ..... **Date:** .....

A record for short dictation sessions. Ten words a session, one or two chunks at a time.

HOW TO RUN A SESSION

1	**Choose a chunk**	Pick one row from the list below and read the three words to yourself first.
2	**Say the word twice**	Normal speed, then slowly. The child repeats it before writing anything.
3	**Write, then check**	The child writes the word and underlines the glued sound in it.
4	**Mark and note**	Score out of ten and write down the one chunk to come back to tomorrow.

Mix ang with ank, and ing with ink, in the same session once the child is confident with each on its own. Those two pairs are where almost every mistake happens, and hearing them side by side is the only way to fix it.
