TWO LETTERS, ONE BOX

Name: ..... Date: .....

In every one of these words two letters team up to make one sound, so those two letters go in the same box together. Write one sound in each box, then count the letters in the word and the sounds in the word. The two numbers are never the same here.

WORD	ONE SOUND IN EACH BOX	LETTERS	SOUNDS
ship			
chin			
bath			
duck			
ring			
wish			
much			
back			
king			
moth			
shelf			
chest			

The teams on this page: **sh**, **ch**, **th**, **ck** and **ng**. A team is not the same as a blend: in **shelf** the sh is one sound but the l and the f are two, so shelf needs four boxes.
