WEEKLY BREAK LOG

Name: ..... **Date:** .....

A line for every break over a week: when the child left, what they were doing when they asked, which break they chose, when they came back and whether it helped. Twelve lines is usually a full week once breaks are working. Keep this with the student binder, not on the wall.

Student ..... Week of .....

DAY	TIME OUT	WHAT WE WERE DOING	BREAK CHOSEN	TIME BACK	DID IT HELP?

WHAT THIS WEEK SHOWS

Look for the pattern in the "what we were doing" column. Most break requests cluster around one activity, and changing that activity is worth more than any chart.
