BLANK TOKEN BOARD

Name: ..... **Date:** .....

An empty board for the number of tokens this child actually needs, rather than the number a printed board happens to have. Ring the number at the top, then draw that many spaces inside the track using the faint guides, or rule a line to close off the sections you are not using yet.

HOW MANY TOKENS? RING ONE.

The guides divide the track into ten. For a five-token board draw a circle in every second section so the spaces end up big, and for a three-token board use every third one.
