# TOKEN DATA SHEET

**Name:** ..... **Date:** .....

A week of tokens on one page. Tally each token as you hand it over, note how many boards were filled, and be honest in the last column about whether the reward was actually given. The reward column is the one that matters: a board that gets filled and then not paid stops working within a day or two.

Student ..... Week of ..... Tokens per board .....

| DAY | TOKENS EARNED (TALLY) | BOARDS FILLED | REWARD GIVEN? | WHAT GOT IN THE WAY |
|---|---|---|---|---|
| Mon | | | | |
| Tue | | | | |
| Wed | | | | |
| Thu | | | | |
| Fri | | | | |
| Sat | | | | |
| Sun | | | | |

**Tokens this week** .....

**Boards filled** .....

**Rewards given** .....

## WHAT TO CHANGE NEXT WEEK

Boards filled but rewards missing means the system is broken, not the child. Fewer than one board a day means the number of spaces is too high.
