WHAT HELPS AT EACH LEVEL

Name: ..... **Date:** .....

The same five levels with something to try at each one. Cross out anything that does not work for you and write your own idea on the dotted line.

5. Out of control

Safe spot, no talking, wait for my body to slow down. An adult stays nearby.

My own idea: .....

4. Very upset

Show my break card, walk with an adult, push hands against the wall, drink water.

My own idea: .....

3. Upset

Six slow breaths, squeeze a ball, two minutes in the quiet corner, then come back.

My own idea: .....

2. A little bothered

Stretch, ask a question, get a drink, move to a quieter seat.

My own idea: .....

1. Calm

Keep going, and notice what is helping me stay calm right now.

My own idea: .....

Teach it when things are calm. Read the levels and the ideas together on a good day, practice one of them, and agree what an adult will say when they see level 3. Nobody learns a new strategy at level 5.
