# BLANK FACT FAMILY HOUSES

**Name:** ..... **Date:** .....

Blank fact family houses. Write any three numbers that belong together on the roof (two parts and their whole, or two factors and their product), then write the four facts inside.

**How fact families work.** Three numbers, four facts. With addition and subtraction the biggest number is the whole: 5 + 9 = 14, 9 + 5 = 14, 14 − 5 = 9, 14 − 9 = 5. With multiplication and division the biggest number is the product: 3 × 8 = 24, 8 × 3 = 24, 24 ÷ 3 = 8, 24 ÷ 8 = 3. Knowing one fact means knowing all four.
