HOW BEES MAKE HONEY

Name: ..... **Date:** .....

Read the story twice: once to sound out the words, once to understand it. Then answer the questions. Look back at the story to check.

How Bees Make Honey

75 words

Bees make honey from flowers. A bee flies to a flower. It sucks up a sweet juice called nectar. The bee keeps the nectar in a special stomach. Then it flies back to the hive. Inside the hive, bees pass the nectar to each other. They fan it with their wings. The water dries out. The nectar turns thick and sweet. That is honey! Bees store honey in wax cells. They eat it in winter.

1. What do bees get from flowers?

nectar | honey | wax

2. Where do bees make the honey?

in a flower | in the hive | in the ground

3. What do the bees do to the nectar with their wings?

_____

_____

4. Why do you think bees store honey? THINK

_____

_____

How Bees Make Honey

75 words

Bees make honey from flowers. A bee flies to a flower. It sucks up a sweet juice called nectar. The bee keeps the nectar in a special stomach. Then it flies back to the hive. Inside the hive, bees pass the nectar to each other. They fan it with their wings. The water dries out. The nectar turns thick and sweet. That is honey! Bees store honey in wax cells. They eat it in winter.

1. What do bees get from flowers?

nectar | honey | wax

2. Where do bees make the honey?

in a flower | **in the hive** | in the ground

3. What do the bees do to the nectar with their wings?

They fan it so the water dries out.

4. Why do you think bees store honey? THINK

So they have food to eat in winter when there are no flowers.
