THE LIFE OF A FROG

Name: ..... **Date:** .....

Read the story twice: once to sound out the words, once to understand it. Then answer the questions. Look back at the story to check.

The Life of a Frog

75 words

A frog starts as an egg in a pond. The egg hatches into a tadpole. A tadpole has a tail and no legs. It swims like a fish. It eats tiny plants. Slowly, the tadpole grows back legs. Then front legs grow too. Its tail gets shorter and shorter. Now it is a frog! Frogs eat flies and bugs. They catch them with a long sticky tongue. A frog can hop far and swim well.

1. What hatches from a frog egg?

a fish | a tadpole | a fly

2. What does a frog catch bugs with?

its legs | its tail | its sticky tongue
