HALVES, THIRDS AND FOURTHS

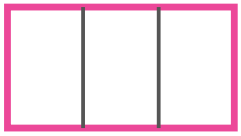

Name: ..... **Date:** .....

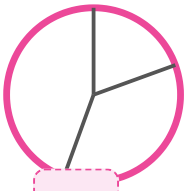

A fraction only works when the parts are **equal**. Circle every shape that is cut into equal parts. Under each one, write the fraction one part is worth ($\frac{1}{2}$, $\frac{1}{3}$ or $\frac{1}{4}$). Leave the box empty if the parts are not equal.

HALVES, THIRDS AND FOURTHS

ANSWER KEY

Name: ..... **Date:** .....

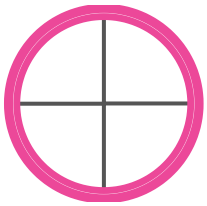

A fraction only works when the parts are **equal**. Circle every shape that is cut into equal parts. Under each one, write the fraction one part is worth ($\frac{1}{2}$, $\frac{1}{3}$ or $\frac{1}{4}$). Leave the box empty if the parts are not equal.

1 

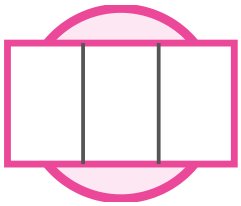

$\frac{1}{2}$

2 

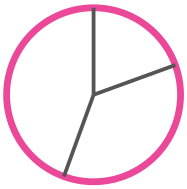

not equal

3 

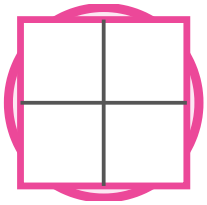

$\frac{1}{4}$

4 

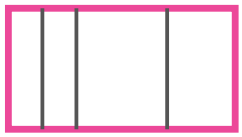

$\frac{1}{3}$

5 

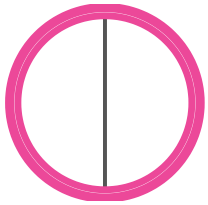

not equal

6 

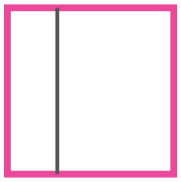

$\frac{1}{4}$

7 

not equal

8 

$\frac{1}{2}$

9 

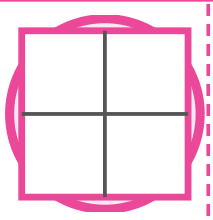

not equal

10 

not equal

11 

$\frac{1}{3}$

12 

$\frac{1}{4}$

Equal parts: 1, 3, 4, 6, 8, 11, 12. Not equal: 2, 5, 7, 9, 10.
