LONG DIVISION: 4-DIGIT DIVIDENDS

Name: ..... **Date:** .....

Six longer divisions, then three problems to set up yourself. Watch for a step where the divisor does not go: write a 0 in the quotient and bring down the next digit.

$9\overline{)7137}$ $3\overline{)4341}$ $6\overline{)2790}$

$5\overline{)2305}$ $4\overline{)8620}$ $6\overline{)1746}$

1 A school orders 1,248 pencils, packed equally into 6 boxes. How many pencils are in each box?

show your working

Answer: _____ pencils

2 2,835 fans are seated in 7 equal sections of a stadium. How many fans sit in each section?

show your working

Answer: _____ fans

3 A baker has 1,375 cookies and puts 8 in each bag. How many full bags can she make, and how many are left over?

show your working

Answer: _____

LONG DIVISION: 4-DIGIT DIVIDENDS

ANSWER KEY

Name: ..... **Date:** .....

Quotients are shown above each bracket, with the check multiplication underneath.

793
$9 \overline{)7137}$
9 × 793 = 7137

1447
$3 \overline{)4341}$
3 × 1447 = 4341

465
$6 \overline{)2790}$
6 × 465 = 2790

461
$5 \overline{)2305}$
5 × 461 = 2305

2155
$4 \overline{)8620}$
4 × 2155 = 8620

291
$6 \overline{)1746}$
6 × 291 = 1746

1 A school orders 1,248 pencils, packed equally into 6 boxes. How many pencils are in each box?

Number sentence: **1248 ÷ 6 = 208**

Answer: **208** pencils

2 2,835 fans are seated in 7 equal sections of a stadium. How many fans sit in each section?

Number sentence: **2835 ÷ 7 = 405**

Answer: **405** fans

3 A baker has 1,375 cookies and puts 8 in each bag. How many full bags can she make, and how many are left over?

Number sentence: **1375 ÷ 8 = 171 r 7**

Answer: **171 bags, 7 left**
