ENVELOPE LABELS

Name: ..... **Date:** .....

Six labels for the envelopes the sets live in. Fill in the name of the set, the subject, how many cards are inside and the age it suits, then draw one of the pictures in the small box so the envelope can be found without opening it.

Count the cards before you write the number, and count them again when the set goes back in. A nomenclature set with a card missing has no control of error left: the child matches five labels, finds one picture without a word, and cannot tell whether the mistake is theirs. Glue the label to the front of a C6 envelope or a zip bag.
