DESIGN YOUR OWN

Name: ..... **Date:** .....

Each box is a small design job. Read the brief, plan in pencil, then finish in colour. Use the checklist at the bottom before you hand it in.

1. A logo for a bakery using only three geometric shapes and two colours.

2. A pattern tile: fill the box with one motif that repeats evenly (pattern + rhythm).

3. An insect with perfect symmetrical balance: fold line down the middle.

4. A flag for an imaginary country in warm colours only; one shape is the emphasis.

5. A friendly creature made of organic shapes only, no straight lines.

6. A city skyline at dusk: near buildings dark, far buildings lighter (value shows space).

SELF-CHECK

Did I use the shapes, colours and lines the brief asked for? Can a partner name the element or principle without reading the brief?

Is there one focal point in box 4? Does the pattern in box 2 repeat the same way all over? Are the far buildings in box 6 really lighter?
