BOREDOM BUSTERS SPINNER

Name: ..... **Date:** .....

Twelve activities on one wheel. Spin, land, do it.

HOW TO MAKE THE SPINNER

1. Cut out the circle along the dotted line and glue it onto cardboard (a cereal box works).
2. Straighten the outer end of a paper clip to make a pointer, keeping the small loop at the other end.
3. Push a brass fastener or thumbtack through the loop and the center dot. Loosen it until the clip spins freely.
4. Flick the pointer. Whatever it stops on is the next thing to do. No re-spins!
