LEAF SET: LABEL CARDS

Name: ..... **Date:** .....

The six words for the leaf set, printed twice so you have a spare set: blade, apex, margin, midrib, vein and petiole. Each card is the same size as the label box on the control card and lies exactly over it.

blade	apex
margin	midrib
vein	petiole
blade	apex
margin	midrib
vein	petiole

Introduce the words before the cards are used alone. Lay out two or three picture cards, name each part ("this is the petiole"), then ask the child to point ("show me the petiole"), then ask the name ("what is this?"). Only after that does the child match written labels.
