NATURAL STRIPS FOR THE SUBTRACTION BOARD

Name: ..... **Date:** .....

Cut out these seventeen wood-colored strips. On the subtraction board a natural strip covers every number larger than the one you start from; the blue strips from the addition set take the number away.

To show 12 – 4: cover 13 to 18 with the 6-strip, lay the blue 4 under 9 to 12, read 8.
