SPINDLE BOXES

Name: ..... **Date:** .....

The Montessori spindle box, ready to print. Count the right number of spindles into each compartment, one at a time, saying the number as the last spindle goes in. The 0 compartment stays empty: zero means none.

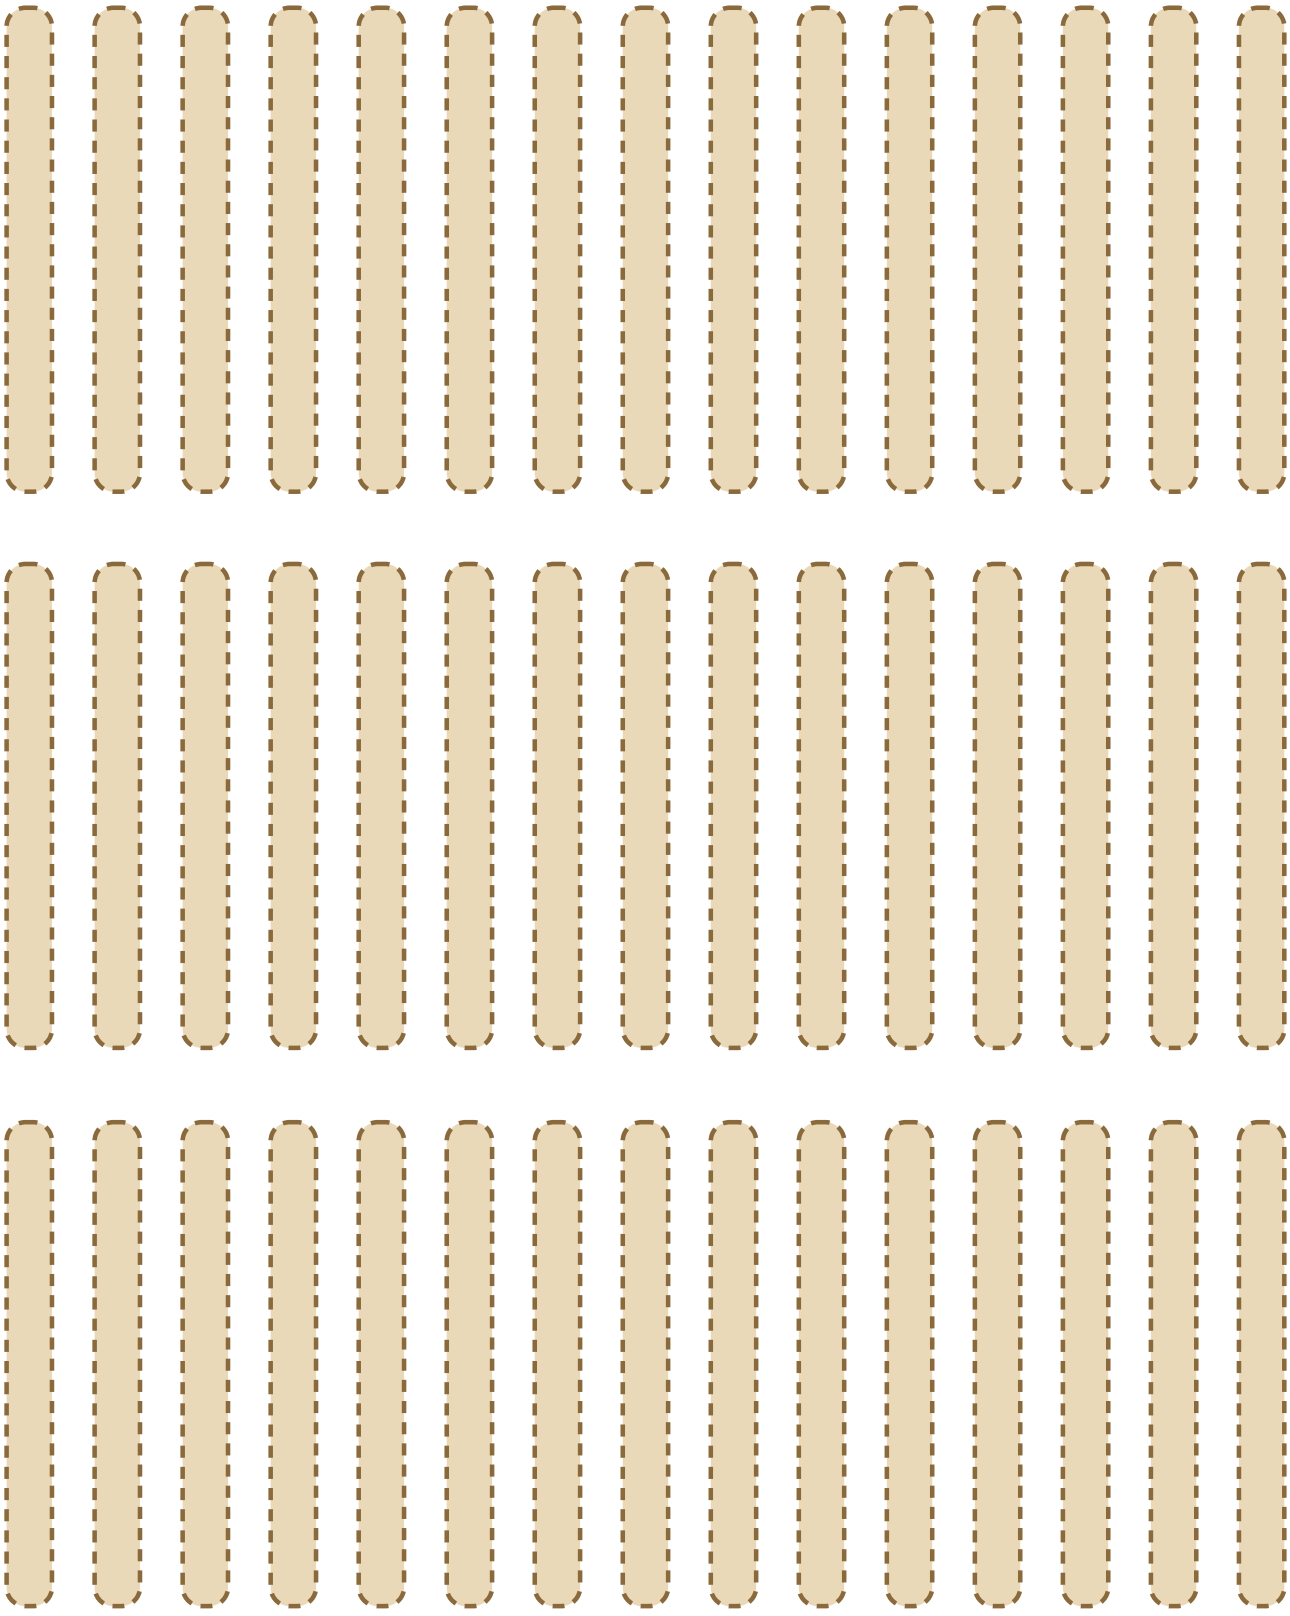

Two boxes, ten compartments, 0 to 9. Print on card and fold a 5 mm lip along the bottom edge of each box, or glue the sheet inside a shallow lid, so the spindles stand up. The 45 spindles are on page 2.

SPINDLE BOXES

Name: ..... **Date:** .....

Forty-five spindles: exactly enough to fill every compartment from 1 to 9 (1 + 2 + 3 + ... + 9 = 45). Cut along the dashed edges. Straws or craft sticks work just as well.
