3-DIGIT × 2-DIGIT

Name: ..... **Date:** .....

Two partial products, then add. Estimate first (400 × 40 = 16,000) so you can spot a slip.

323 × 26	757 × 86	739 × 59
223 × 96	807 × 47	384 × 68

3-DIGIT × 2-DIGIT ANSWER KEY

Name: ..... Date: .....

Two partial products, then add. Estimate first (400 × 40 = 16,000) so you can spot a slip.

323 × 26 = 8398	757 × 86 = 65102	739 × 59 = 43601
223 × 96 = 21408	807 × 47 = 37929	384 × 68 = 26112

For non-commercial, education use only
