WRITE THE EQUATION, THEN SOLVE

Name: ..... **Date:** .....

Turn each sentence into an equation with x for the unknown number, then solve it. "Sum" means add, "product" means multiply, "less than" and "decreased by" mean subtract.

1. A number plus 7 is 15. ____ **x =** ____

2. Six less than a number is 9. ____ **x =** ____

3. Four times a number is 28. ____ **x =** ____

4. A number divided by 5 is 6. ____ **x =** ____

5. The sum of a number and 12 is 20. ____ **x =** ____

6. A number decreased by 9 equals 11. ____ **x =** ____

7. The product of 6 and a number is 54. ____ **x =** ____

8. Half of a number is 13. ____ **x =** ____

Worked example: "Three more than a number is 10" → x + 3 = 10 → x = 7. Check: 7 + 3 = 10.

WRITE THE EQUATION, THEN SOLVE

ANSWER KEY

Name: ..... **Date:** .....

Answer key.

1.	A number plus 7 is 15.	**x + 7 = 15**	**x = 8**
2.	Six less than a number is 9.	**x − 6 = 9**	**x = 15**
3.	Four times a number is 28.	**4x = 28**	**x = 7**
4.	A number divided by 5 is 6.	**x/5 = 6**	**x = 30**
5.	The sum of a number and 12 is 20.	**x + 12 = 20**	**x = 8**
6.	A number decreased by 9 equals 11.	**x − 9 = 11**	**x = 20**
7.	The product of 6 and a number is 54.	**6x = 54**	**x = 9**
8.	Half of a number is 13.	**x/2 = 13**	**x = 26**

Worked example: "Three more than a number is 10" → x + 3 = 10 → x = 7. Check: 7 + 3 = 10.
